

International  
Symposium Committee

### Symposium co-chairs:

**Rainer Herpers,**  
University of Applied Sciences,  
Germany

**Vladan Papić,**  
University of Split,  
Croatia

### Committee members:

Zdenko Kovačić  
University of Zagreb,  
Croatia

George A. Papakostas  
International Hellenic University  
(IHU), Greece

Snezhana Kostova  
Institute of Robotics  
Bulgarian Academy of Science  
Bulgaria

Mirjana Bonković  
Mojmil Cecić  
Tamara Grujić  
Josip Musić  
Ana Kuzmanić Skelin  
Ivo Stančić  
University of Split,  
Croatia

21-23 September 2023 // Split, Croatia

## Symposium on:

# Robotics and ICT Assisted Wellbeing

### Symposium Co-Chairs:

**Rainer Herpers,** Bonn-(Bonn-Rhein-Sieg University of Applied Sciences, Germany ([rainer.herpers@h-brs.de](mailto:rainer.herpers@h-brs.de))

**Vladan Papić,** University of Split, Croatia ([vpapic@fesb.hr](mailto:vpapic@fesb.hr))

## Call for Papers

Symposium on "Robotics and ICT Assisted Wellbeing" will be held in the frame of the 31st International Conference on Software, Telecommunications and Computer Networks (SoftCOM 2023), co-organized by the University of Split, FESB and Croatian Communications and Information Society (CCIS) and technically co-sponsored by the IEEE Communications Society (ComSoc), on September 21 - 23, 2023 in city of Split.

Modern technologies have become a part of everyday living helping humans in performing daily activities and making them more efficiently and safely. Typical solutions assume various types of technological assistance which make living easier, more amusement or/and safer, and include robotic assisted learning, intelligent homes, remotely operated devices, environment and audience meters etc.

The main focus of this symposium includes robotic and ICT innovations, primarily oriented towards humans and their wellbeing. Except the novelty introduced into the specific research topics, this session's papers should contribute with the added value emphasizing the benefits the humans can obtain from nowadays ubiquitous robotic and ICT devices.

Accepted and presented papers will be published in the conference proceedings and submitted to IEEE Xplore as well as other Abstracting and Indexing (A&I) databases. Authors of selected best papers will be invited to submit an extended version of their manuscripts for publication in a special issue of the [Journal of Communications Software and Systems \(JCOMSS\)](#).

We cordially invite speakers who wish to present original papers on the following topics of interest:

- Innovative Assistance in Education,
- Robot-assisted Rehabilitation,
- Social Robot Applications,
- Assistance for People with Disabilities,
- Therapy for People with ASD,
- Robots in Agriculture,
- Human Activity Recognition,
- AI and ML in surveillance and monitoring,
- Wearable Health Monitoring Devices,
- Assistance for Elderly,
- AR Experience,
- 3D Visualization /Measurements.

### IMPORTANT DATES

Complete manuscript due	May 1, 2023
Notification of acceptance	June 15, 2023
Camera-ready manuscript	July 1, 2022
